User Information Guide

Pocket Change™ End-User License Agreement (EULA)

This Advanced Merchant Solutions, Inc. End-User License Agreement (EULA) is a legal agreement between you (either an individual or a single entity) and Advanced Merchant Solutions, Inc. for the Advanced Merchant Solutions, Inc. software product identified above, which includes computer software and may include associated media, printed materials, and online or electronic documentation. The software also includes any updates and supplements to the original software provided to you by Advanced Merchant Solutions, Inc. Any software provided along with the software that is associated with a separate end-user license agreement is licensed to you under the terms of that license agreement. By installing, copying, downloading, accessing, or otherwise using the software, you agree to be bound by the terms of this EULA.

USE

You (an entity or a person) may use the software product identified above (the "software") on ONE PDA within your organization.

TECHNICAL SUPPORT

The software is provided as is. Technical support is available only for registered users who have purchased the retail product or product downloads from the Internet. Technical support can be obtained online at support@merchantanywhere.com

RESTRICTIONS

Except as authorized by the user documentation, you may not merge, modify, or adapt the software in any way, including reverse engineering, disassembling, de-compiling, or attempting to enable features that are disabled. You may not loan, rent, lease, license, or otherwise transfer the software or any copy of it to any third party outside your organization.

COPYRIGHT

All intellectual property rights in the software and user documentation are owned by Advanced Merchant Solutions, Inc. or its suppliers and are protected by United States, Canadian, and international copyright laws, other applicable copyright laws, and international treaty provisions. Advanced Merchant Solutions, Inc. retains all rights not expressly granted.

NO WARRANTY

Given the nature of this right to use, Advanced Merchant Solutions, Inc. makes no warranty or representation, either expressed or implied, with respect to the software or related user documentation or technical support, including their quality, performance, merchantability, or fitness for a particular purpose. No Advanced Merchant Solutions, Inc. dealer, distributor, agent, or employee is authorized to make any modifications or addition to this warranty.

NO SUPPORT

You will not receive any technical support (other than automated support) from Advanced Merchant Solutions, Inc. in connection with your use of the software.

LIMITATION OF LIABILITY

Because software is inherently complex and may not be completely free of errors, you are required to verify your work and make back-up copies. In no event will Advanced Merchant Solutions, Inc. be liable for direct, indirect, special, incidental, economic, cover, or consequential damages arising out of the use of or inability to use the software, user documentation, or technical support, including, without limitation, damages or costs relating to the loss of profits, business, goodwill, data, or computer programs, even if advised of the possibility of such damages. Some states or provinces do not allow the exclusion or limitation of implied warranties or the limitation of liability for incidental or consequential damages, so the above exclusion or limitation may not apply to you.

SOFTWARE SCOPE

The software and any updates or supplements to it provided to you by Advanced Merchant Solutions, Inc. are licensed for a period of one year.

PRERELEASE CODE

The software may contain pre-release code that is not at the level of performance and compatibility of the final, generally available, product offering. These portions of the software product may not operate correctly and may be substantially modified prior to the first commercial shipment. Advanced Merchant Solutions, Inc. is not obligated to make this or any later version of the software product commercially available.

TERMINATION

Without prejudice to any other rights, Advanced Merchant Solutions, Inc. may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the software and all of its component parts.

U.S. GOVERNMENT RESTRICTED RIGHTS

The software and/or user documentation is provided with RESTRICTED AND LIMITED RIGHTS. Duplication or disclosure by the Government is subject to restrictions as set forth in FAR 52.227-14 (June 1987) Alternate III (g)(3), FAR 52.227-19 (June 1987), or DFARS 52.227-7013 (c)(1)(June 1988), as applicable. Contractor/Manufacturer is Advanced Merchant Solutions, Inc., Inc., P.O. Box 3523 Fullerton, CA 92834

GENERAL

This software is NOT FOR EXPORT.

Pocket Change User Information Guide

(Windows Mobile Pocket PC Edition)

Welcome

Welcome to Pocket Change for the Windows Mobile Pocket PC. Pocket Change is a tool used for printing cash-based receipts. With its intuitive interface, all you need to do is enter an amount, click Sale, then enter the amount of cash your customer gives you. Pocket Change will display the change owed to the customer and allow you to print a cash receipt.

This document outlines the major features and uses of Pocket Change. In order to use Pocket Change, you must have an existing version of our Credit Card Verification Software, as Pocket Change uses the Merchant Account information and customer receipt and printing options that you set up in this program.

Pocket Change Requirements

Pocket Change will work with any Palm OS Operating System. However, in order to use Pocket Change, you must meet the following criteria:

- Windows Mobile 2003 Pocket PC or Pocket PC 2000 or 2002 with ARM Processor
- Our Credit Card Verification Software must be installed.
- You must have Pocket Merchant or Pocket Spectrum setup in our Credit Card Verification Software
- You must have already activated and logged on to your Merchant Account using the Verification Software.

If you launch Pocket Change and receive the following error: "AppForge Booster Required..." it means that you have not properly installed our Credit Card Verification Software.

Installing and Launching Pocket Change

Please follow the instructions below to install Pocket Change onto your Pocket PC.
In order to install Pocket Change, you must have downloaded or obtained the software installation file [PChange.PPC.Install.X.XX.EXE](#) (where .X.XX is optional and will contain the version number).

Note:

It is assumed that you have already installed the Pocket PC Active Sync software (version 3.5 or greater) that came with your Pocket PC and that you have successfully performed a User or Guess Connection between your Pocket PC and the computer you are using to install this software. If not, please consult the documentation that came with your Pocket PC device and set up your system before continuing with this installation. For on-line documentation on how to set up your Pocket PC, please visit the following page:
<http://www.microsoft.com/mobile/pocketpc/club/stepbystep/software.asp>

Installation

In order to install Pocket Change onto your device...

1. Place your Pocket PC into its cradle and establish communications with your computer.
If you are using a computer other than your own, you do not need to create a partnership; logging in as a guess is sufficient for installing the software.
2. Locate the [PChange.PPC.Install.X.XX.EXE](#) file.
3. Double-click on this file.
The installation will start. Simply follow the directions located on the screen.
In addition, you may be asked to replace files on your Pocket PC Device. Select [Yes to all](#).
When the installation is complete, Pocket Change will be successfully installed onto your Pocket PC and registered with the system.

Launching the Program

After installation, Pocket Change will be installed in the Programs Directory. To launch Pocket Verifier Professional for the first time,

1. Click on the [Start Menu](#).
2. Select [Programs](#).
3. In the [Programs Directory](#), select [Pocket Verifier](#).
This will launch Pocket Change.
You may also want to add a shortcut to your Menu bar.
See your Pocket PC documentation on how to do this, or visit the Pocket PC web site at:
<http://www.microsoft.com/MOBILE/developer/technicalarticles/shortcuts1.asp>

The Pocket Change Interface

Introduction

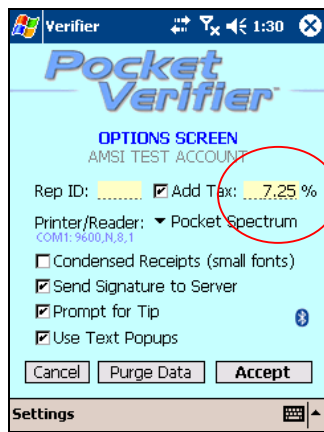

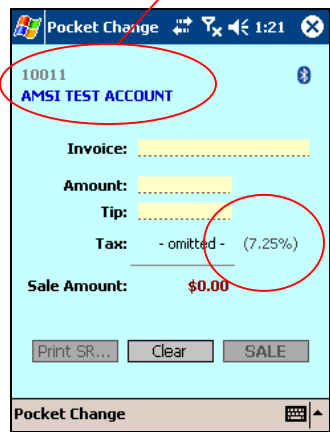

The features of Pocket Change can be accessed by menu items, hotspots and buttons. There are two basic screens: (1) a sales screen and a (2) summary screen. In addition, there is also the numeric Keypad interface that you are familiar with in our Credit Card Verification software. These are shown below.

Sales Screen

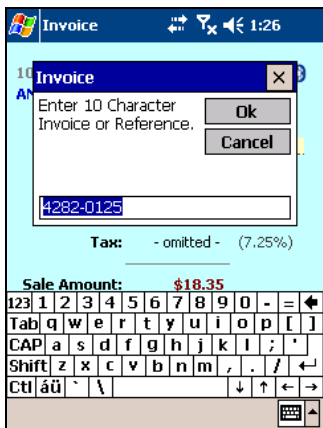

The sales screen is where you enter a reference number ([Invoice](#)) and the amount of the ticket item ([Amount](#)). You can also enter a Tip and Sales Tax. In order enter sales tax; you must have already set up a sales tax value inside the options/settings screen of your Credit Card Verification software. In this example a sales tax of 7.25% was entered.

Also, if you are using more than one merchant account in your software, it is important to verify that your Merchant Name and Merchant ID are correct, since the receipt layout is dependent on what account you are using. Pocket Change uses the Merchant Account you last logged into with your Credit Card Verification software.

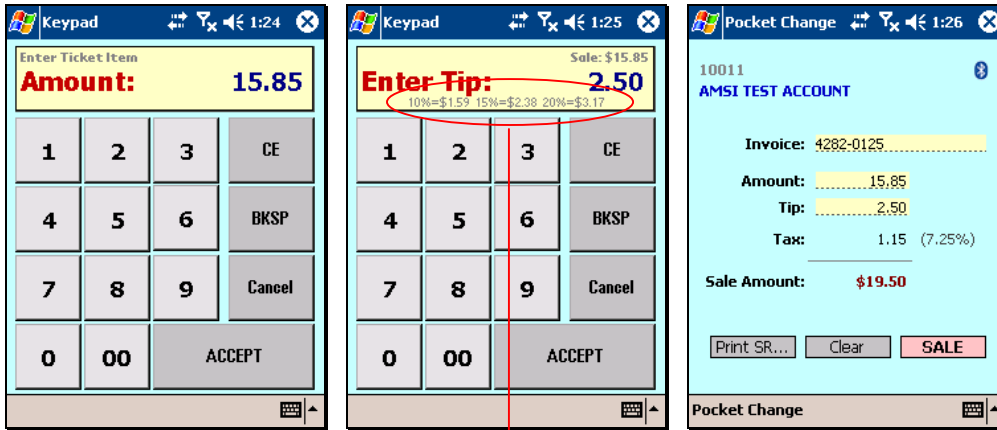

Make sure your Merchant Name and Merchant ID are correct.

When you enter an invoice, and default reference number is displayed. You can click [OK](#) to keep this reference number, or input your own 10 character code.

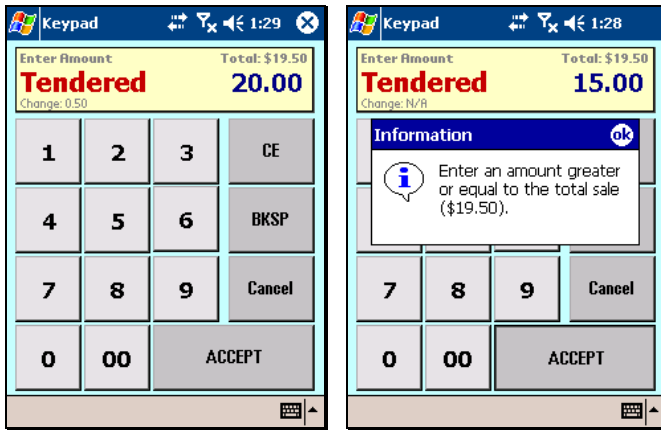

When you click on the Amount box, the Keypad is display. Enter the amount of ticket item or service being sold or charged. You can do the same with entering a tip. If you want to add tax to the item, click on the tax area. This hotspot will toggle the tax-added-value on and off.

Click here to toggle tip suggestion on and off.

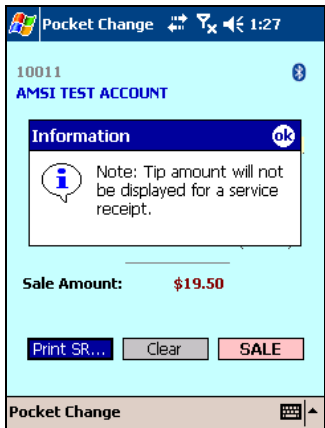

After entering the amount and invoice, you can click on the **SALE** button to display the Tendered Keypad. Here you enter the amount of money the customer gives you. If you enter an amount less than what the total sales is; a warning message will appear.

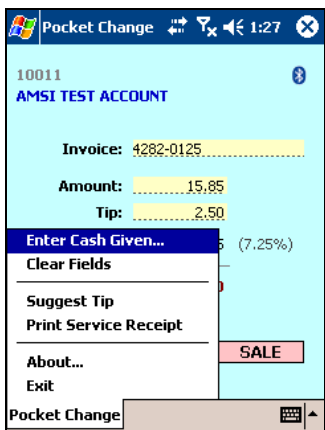

After entering a valid amount, the summary screen will appear (see below for information on this screen).

The sales screen also allows you to print a service receipt. A service receipt does not display the tip or total, but rather an area where the customer can enter the amount.

If you enter a Tip amount and click on [Print SR...](#), you will be notified that the Tip amount will not print. Once the customer fills out a service receipt, you can enter the tip amount, click on sale, determine the change (if any) and provide a final cash receipt to the customer. You can also make a copy for your records or keep the handwritten service receipt. A sample of a service receipt is shown later in this user information guide.

The sales screen as has a number of other features that are accessible only from the menu. To open the menu, click on the Pocket Change title at the top of the screen. When doing so, the following menu will be displayed:

[Enter Cash Given](#) is the same as clicking on the [SALE](#) button.

[Clear Fields](#) is the same as clicking on the [Clear](#) button.

[Suggest Tip – On/Off](#) toggles the Tip Suggestion on a Service Receipt. This is shown later in receipt examples.

[Print Service Receipt](#) is the same as clicking on the [Print SR...](#) button.

[About](#) displays the version number of the software. Always make sure you have the most recent version.

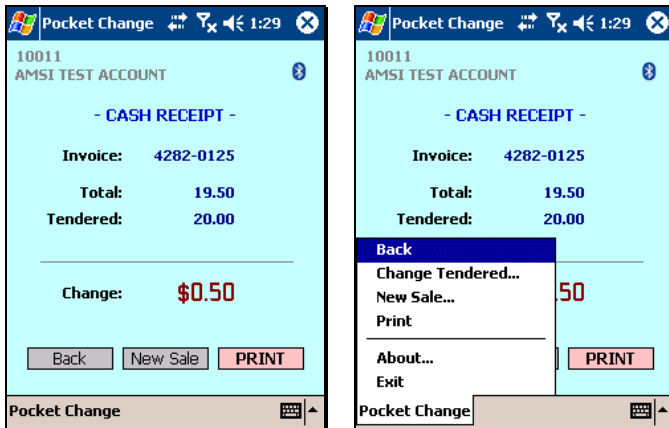

[Exit](#) will exit the Pocket Change software.

Summary Screen

The summary screen is displayed after entering a valid cash (or tendered) amount. This screen displays the amount of change required to give back to the customer and allows you to print a cash receipt by clicking on the **PRINT** button.

From this screen, you can return to the previous sales screen by clicking on the **Back** button and change amounts or click on the **New Sale** button to start entering information for a new cash sale. These features are also available from the menu bar.

In addition, you can tap on the **Tendered** amount, or choose **Change Tendered** from the menu to enter a different cash amount give by your customer.

Receipt Samples

Introduction

There are two types of receipts: (1) General Cash Receipts and (2) Service Receipts. Service receipts allow the customer to enter the TIP and TOTAL. General Cash Receipts display TOTAL, CASH, and CHANGE. Each of these are shown below.

General Cash Receipts

Tip and Tax

Tip Only

No Tip or Tax

Service Receipts

The following Service Receipt shows Tax and Tip Suggestion.

To remove the Tip Suggestion, toggle the Tip Suggestion menu item from ON to OFF in the sales screen.

Tip Suggestion
